FOREWORD

Section 1 - Intent of Handbook:

This handbook is intended to be used by students, parents and staff as a guide to the rules, regulations, and general information about Valentine Community Schools. Each student is responsible for becoming familiar with the handbook and knowing the information contained in it. Parents are encouraged to use this handbook as a resource and to assist their child in following the rules contained in this handbook.

Although the information found in this handbook is detailed and specific on many topics, the handbook is not intended to be all-encompassing so as to cover every situation and circumstance that may arise during any school day, or school year. This handbook does not create a “contract.” The administration reserves the right to make decisions and make rule revisions at any time to implement the educational program and to assure the well-being of all students. The administration will be responsible for interpreting the rules contained in the handbook. Should a situation or circumstance arise that is not specifically covered in this handbook, the administration will make a decision based upon all applicable school district policies, and state and federal statutes and regulations.

NOTIFICATION

This handbook also provides notification of the policies of Valentine Community Schools regarding Safe and Drug Free Schools, nondiscrimination, harassment, parental rights afforded under section 504 of the Rehabilitation Act of 1973, rights under The Family Educational Rights Policy Act (FERPA), disclosure of information to military recruiters, staff qualifications, student privacy protection, parental involvement, and homeless students.

Valentine Community Schools is an affirmative action/equal opportunity institution.

All teachers at Valentine Community Schools are highly qualified. Specific qualifications can be supplied upon request.

ARTICLE 1 - MISSION AND GOALS

Section 1 - School Mission Statement

Valentine Community Schools will provide positive and challenging educational opportunities for all students in preparation of productive and responsible citizenship for the future. Valentine Community Schools believe:

- o Learning is a life long process
- o Each student can learn
- o All individuals have value and should be treated with dignity and respect
- o Education is a responsibility to be shared between the student, staff, parents, and community

Section 2 - School Improvement Goal

All students will improve their problem solving proficiency, which includes, but is not limited to, math reasoning and reading comprehension.

Section 3 - Mutual Respect

Valentine Community Schools expect all staff members and students to be treated with respect and dignity. A show of disrespect toward a staff member or insubordination on the part of the student will not be tolerated.

Section 4 - Multicultural Education

Diversity has been a part of our country since its beginning. Multicultural education enables students to understand our country’s racial, ethnic, and ancestral backgrounds. Contributions and perspectives of many diverse groups are infused into the curriculum to help prepare students to live, learn, and work in a pluralistic world. Multicultural education is incorporated into all academic areas.

Section 5 - Concern Procedure

The Board of Education, administration, and staff of the Valentine Community Schools want to do everything possible to ensure that each student’s educational experience is a worthwhile and positive experience. We are committed to working with students, parents and guardians, and the community to have the best staff, programs, and materials possible. The proper procedures for a parent or student to make a complaint or raise a concern about school staff, programs or activities are set forth below. Other procedures exist to address discrimination or harassment, the bullying of students, and to challenge disciplinary actions, and such other procedures should be used to address those types of concerns.

1. Complaint procedure:

- Step 1. Have a scheduled conference with the staff person involved in the complaint matter.
- Step 2. Appeal to the Principal if the matter is not resolved at Step 1.
- Step 3. Appeal to the Superintendent if the matter is still unresolved at Step 2.
- Step 4. Appeal to the Board of Education if the matter is still unresolved at Step 3.

Written appeal should be made within five (5) days of the Superintendent’s decision.

2. Conditions Applicable to All Levels of Complaint Procedure:

All information to be considered at each appeal step should be placed in writing in order to be most effective. Appeal decisions shall be expedited as quickly as possible. A decision at any level should be rendered within ten (10) calendar days, unless a legal hearing is requested or required.

ARTICLE 2 - SCHOOL DAY

Section 1 - Daily Attendance & Schedules

Attendance Regular school attendance is a critical factor for success in school. Students are expected to be in attendance at school all days that school is in session. If a student must be absent, we ask parents or guardians to **call the attendance center** to notify the teacher. There will be a time limit allowed for make-up work. This time limit will be two days for each day of school missed. Teachers may give additional time or require work sooner if the situation warrants it. When a student returns to school after an absence, he/she must present a **written excuse** stating the reason for the absence. Parents and students need to check with their principal and teacher(s) for assignments if they know in advance they will be absent. Retention will be strongly considered for any student who misses more than 20 days during the school year. (See the Attendance/Excessive Absenteeism/Truancy Policy.) Habitual tardiness will be handled on an individual basis and may include staying after school, parent conferences, and in-school suspension.

See the schedule at each individual attendance center for starting and dismissal times for the day. Kindergarten students will attend on days set by the Principal for each attendance center. These will generally be Monday, Wednesday, and Friday, unless other days are needed due to scheduling of Bookmobile, Special Education services, or other needs. An instructional schedule is posted in your child's classroom.

Section 2 - Severe Weather and School Cancellations

Decision to Close Schools In the event of severe weather or mechanical breakdown, the school may be closed or the starting time delayed. The same conditions may also necessitate early dismissal. The administration, in conjunction with the advisory committee and teacher will make such decisions. Individual families will be notified and/or local news media will be contacted when inclement weather warrants such action. If no report is heard, it can be assumed that school will be in session.

After School Starts Every attempt will be made to avoid closing school once classes are in session. In some instances closing school during the day is inevitable if children are to safely return home before the brunt of a major storm hits. In these cases as much advance notice as possible will be given to parents. If school is closed during the day individual families will be notified and/or local news media will be contacted. **Parents should have a plan in place to accommodate these circumstances.** Teachers will be responsible for remaining with students until all students have safely left school or arrangements have been made for the remaining students.

Parental Decisions *Parents may decide to keep their children at home in inclement weather because of personal circumstances.* Students absent because of severe weather when school is in session will be marked absent. The absence will be treated like any other absence for legitimate causes provided parents properly notify the school of their decision. Parents may pick up their children in inclement weather at any time during the school day. Students will not normally be dismissed from school during severe weather on the basis of a telephone request.

What Not To Do Parents should not attempt to come to school during a tornado warning. **School officials are not permitted to release students from the school building during a tornado warning.** Tornado safety procedures are practiced regularly by students and staff. Also, parents are urged not to telephone the radio station or the school during severe weather. Every effort will be made to provide accurate and timely information to parents through KVSH radio and/or via telephone.

Emergency Response Plans Valentine Community Schools maintain Emergency Response Plans for Fire Drills, Emergency Exits, Tornadoes, and Critical Incident Response for the protection of students and school personnel. Regular drills are held as required by law throughout the school year in order that students and staff are instructed and prepared in appropriate procedures. Each attendance center has a signal which, when activated, indicates the necessity to either evacuate the building or move to safer areas of the building.

Section 3 - Closed Campus

All students are required to remain on school grounds during the school day, unless they are under the direct supervision of school personnel or released to parents or other school-authorized personnel.

Section 4 - Field Trips and Resource Speakers

Teachers are encouraged to plan one local field trip during the school year as part of our school programs. All field trips must be approved in advance by the Principal. These trips may require transportation. Written parent/guardian permission is required when the field trip is away from the school. Teachers will provide parents with information about the vehicle their child is riding in; including cell phone numbers, phone numbers at destination, schedule and other important information. Field trips are supervised by the classroom teacher and usually one or two more adults. Children under age 6 will be in a restraint system as determined by Nebraska State Law in order to travel on any school sponsored trips. Community resource speakers can be a wonderful asset to learning. Classroom teachers are encouraged to solicit the expertise of at least one resource speaker each year.

ARTICLE 3 - USE OF BUILDINGS AND GROUNDS

Section 1 - Visitors

Outside entrances to the buildings are kept locked for safety and security reasons. All visitors must report to the teacher upon entering the school. Parents are welcome at all times and encouraged to make arrangements to visit their child's classroom and/or school day activities. We suggest that a visit be limited to one instructional period. Parents who plan to visit school need to schedule their visit with the Principal's Office at least one day ahead of time so that the school can confirm the visit, let you know if that school day has been altered, or if for some reason another day would be better for a visit. Younger siblings should not accompany parents on school visits as they may cause a disruption to the class. Parents are asked to follow the parent involvement policy concerning visits to school. *Note: The first and last month of the school year are not good times for visits.*

Section 2 - Pictures

Individual and class pictures will be arranged by the teachers in conjunction with a school photographer and are available for purchase. These are included in the student's school records when provided.

Section 3 - School Parties

Halloween, Christmas, and Valentine's Day are the three times during the school year when parties will be held. The classroom teacher coordinates the parties with the parents. Due to food allergies, parents are asked to provide prepackaged treats only for holiday parties. Gifts may be exchanged at the Christmas party, however, a limit of \$5.00 will be placed upon the gift exchange. Valentine's Day cards will be exchanged in the classrooms. Teachers will send home a list of students' names. Additional items in Valentine's (candy, gum, etc.) should be limited to a very few, small pieces. School parties must take place at the end of the school day and may not last for more than 1 hour.

Section 4 - Birthdays

Students may bring treats on their birthdays. Due to food allergies, parents are asked to send only prepackaged treats. These treats should consist of a snack sent to school to be distributed at an appropri-

ate time to be determined by the teacher. No decorations, candies, games, gifts, or other treats should be planned for birthdays. **Please do not send or arrange for the delivery of balloons to school for a child's birthday or other occasions.** Children may not distribute personal party invitations at school unless all of the children in the room are invited. There are too many hurt feelings if some students do not receive an invitation. The office is not permitted to release the full names, addresses, or phone numbers of students.

Section 5 - Use of Telephone

Use of the office courtesy telephone will be allowed in an emergency or when a student is ill. Plans for rides home, staying with friends, etc., should be made in advance to avoid unnecessary phone calls.

Section 6 - Student Valuables/Lost and Found

Students are responsible for their personal property and are cautioned not to bring large amounts of money or items of value to school or school activities. If it is necessary, these items are to be left with a staff member for temporary safe-keeping. Even then, the school is not in a position to guarantee that the student's property will not be subject to loss, theft, or damage.

Students who find lost articles are asked to take them to a staff member. Likewise, students who lose articles should report that loss to a staff member.

Section 7 - Insurance

Under Nebraska law, the District may not use school funds to provide general student accident or athletic insurance. Information about student insurance providers is made available to all students upon enrollment in school.

Section 8 - Smoke-Free Environment

Valentine Community Schools declares all of our schools buildings and grounds to be smoke-free. We would appreciate your help in meeting the goal of a smoke- and tobacco-free environment for our children. When attending school events, including athletic events, please remember that our grounds are smoke- and tobacco-free and abide by our District's policy.

Section 9 - Care of School Property

1. Students are responsible for the proper care of all books, equipment, supplies and furniture supplied by the school.
2. Students who disfigure property, break windows or do other damage to school property or equipment will be required to pay for the damage or to replace the item.

Textbooks are rented by the school from Sawyer Memorial Library and/or taxpayers of the district. Book covers should be used by students to preserve textbooks that are loaned to them at their own risk. Fines will be assessed for books that are damaged or lost. It is the responsibility of the parent/student to list prior damages when receiving textbooks. This list is to be given to the teacher.

Fines on library and textbooks are determined according to the following criteria:

Lost Book:	Replacement cost
Missing one or both covers or damaged beyond use:	Replacement cost
Cover Damage:	\$0.25 - \$5.00
Page Damage - Useable:	\$0.25 - \$0.75 per page (up to replacement cost of book)
Page Damage - Beyond Use:	\$1.00 (up to replacement cost of book)

School-issued items that are stolen or lost are the responsibility of the student to whom they were issued. General condition of materials and equipment is always a consideration before assessing fines. Students must pay all fines before they can receive final grades.

Section 10 - Searches of Lockers and Other Types of Searches

School faculty and staff are authorized to inspect lockers and desks and may remove any objectionable items. Student lockers, desks, computer equipment, and other such property are owned by the school. The school exercises exclusive control over school property. Students should not expect privacy regarding usage of or items placed in or on school property because school property is subject to search at any time by school officials. Periodic, random searches of lockers, desks, computers and other such property may be conducted at the discretion of the administration. The school may use the assistance of specially trained dogs to detect contraband in students' lockers, belongings, or automobiles on school property.

The following rules shall apply to searches of students and of a student's personal property and to the seizure of items in a student's possession or control:

1. School officials may conduct a search if there is a reasonable basis to believe that the search will uncover evidence of a crime or a school rule violation. The search must be conducted in a reasonable manner under the circumstances.
2. Illegal items or other items reasonably determined to be a threat to the safety of others or a threat to educational purposes may be taken and kept by school officials. Any firearm or other weapon shall be confiscated and delivered to law enforcement officials as soon as practicable.
3. Items which have been or are reasonably expected to be used to disrupt or interfere with the educational process may be removed from student possession.

Section 11 - Copyright and Fair Use Policy

It is the school's policy to follow the federal copyright law. Students are reminded that, when using school equipment and when completing course work, they also must follow the federal copyright laws. The federal copyright law governs the reproduction of works of authorship. Copyrighted works are protected regardless of the medium in which they are created or reproduced; thus, copyright extends to digital works and works transformed into a digital format. Copyrighted works are not limited to those that bear a copyright notice.

The "fair use" doctrine allows limited reproduction of copyrighted works for educational and research purposes. The relevant portion of the copyright statute provides that the "fair use" of a copyrighted work, including reproduction "for purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship, or research" is not an infringement of copyright. The law lists the following factors as the ones to be evaluated in determining whether a particular use of a copyrighted work is a permitted "fair use," rather than an infringement of the copyright:

- the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- the nature of the copyrighted work;
- the amount and substantiality of the portion used in relation to the copyrighted work as a whole, and
- the effect of the use upon the potential market for or value of the copyrighted work.

Although all of these factors will be considered, the last factor is the most important in determining whether a particular use is "fair." Students should seek assistance from a faculty member if there are any questions regarding what may be copied.

ARTICLE 4 - ATTENDANCE

Section 1 - Attendance Policy

The Board of Education believes it is the shared responsibility of the school and the home to assist students in developing desirable habits of punctuality and attendance. The Board expects that every step will be taken by appropriate school personnel to implement this philosophy. The only excused absences

are those due to verified illness of the pupil, death in the family, a doctor or dentist appointment, or whenever the principal considers that exemption from attendance is in the best interest of the pupil. All other absences are unexcused. Every pupil must attend school punctually. Habitual tardiness is defined as excessive absence.

Principals are authorized to require satisfactory explanation from the parent or guardian for the absence or tardiness of a pupil for all or any part of the school day. The explanation may be obtained in person, by telephone, or in writing. The final decision determining whether an absence is excused or unexcused rests with the administration.

It shall be the policy of the school district, also known as Valentine Community Schools, to report as truant any student enrolled in the district for excessive absenteeism on the part of such student. The term "excessive absenteeism", as used herein, shall mean unexcused absences of 5 or more days per quarter or the hourly equivalent or when the number of unexcused absences exceeds 20 days cumulatively per school year or the hourly equivalent.

For any quarter in which the number of unexcused absences is 5 days, or its hourly equivalent, the Superintendent or his/her designee shall see that services which shall include, but need not be limited to, the following are provided to the student and his/her parent or guardian:

1. One or more meetings between a school attendance officer, school social worker, or if such school does not have a school social worker, by another person designated by the school administration if such school does not have a school social worker, the student's parent or guardian, and the student, if necessary, to report and to attempt to solve the truancy problem, unless the officer or worker has documented the refusal of the parent or guardian to participate in such meetings;
2. Educational counseling to determine whether curriculum changes, including but not limited to, enrolling the student in an alternative education program that meets the specific educational and behavioral needs of the student, would help solve the truancy problem;
3. Educational evaluation, which may include a psychological evaluation, to assist in determining the specific condition, if any, contributing to the truancy problem, supplemented by specific efforts by the school to help remedy any condition diagnosed; and
4. Investigation of the truancy problem by the school social worker, or if such school does not have a school social worker, by another person designated by the administration, to identify conditions which may be contributing to the truancy problem. If services for the student and his/her family are determined to be needed, the school social worker or other person performing the investigation shall meet with the parent or guardian and the student to discuss any referral to appropriate community agencies for economic services, family or individual counseling, or other services required to remedy the conditions that are contributing to the truancy problem.

If the student in question continues to be or becomes habitually truant, the attendance officer for the District, or the Superintendent or his/her designee, shall serve a written notice to the person violating Section 79-201 warning him/her to comply with its provisions. If, within one week after the time such notice is given, such person is still violating the Section, the attendance officer or Superintendent or his/her designee shall file a report with the county attorney of the county in which such person resides. If after such notice has been sent to any person violating such section such person again violates the same section, no written notice shall be required but a complaint may be filed at once.

If the county attorney requests or requires any other reporting forms, the school attendance officer or the Superintendent or his/her designee shall complete such forms for reporting such excessive absenteeism or habitual truancy as described by this Policy and as defined by statute. **Any person violating the provisions of sections 79-201 to 79-209 (Nebraska State Law) shall be guilty of a Class III misdemeanor.**

LB 152 extends the offense of truancy to all students enrolled in a public school regardless of age. Parents or guardians of a child under the age of 6 by January 1 of the current school year may discontinue enrollment by notifying the district in writing.

Section 2 - Attendance and Absences

Absences From School - Definitions

1. **Excused Absences** Absences should be cleared with the teaching staff in advance whenever possible. Excused absences include illness and death in the family. All other absences may be considered unexcused.
2. **Unexcused Absences** If a student's absence is unexcused the student may be required to make up both the classwork and time missed from school.
3. **Excessive Absenteeism** A student who engages in excessive absences may be considered truant as per state law, Neb. Rev. Stat. § 79-201. Truancy is a violation of school rules. The consequence of such action includes: detention, suspension, retention, referral to Child Protective Services for parent neglect, referral to County Attorney's Office for parent neglect and violation of Nebraska State Law. Students who leave the school premises without permission during the school day will be considered truant.

Reporting and Responding to Truant Behavior Any administrator, teacher, or member of the Board of Education who knows of any failure on the part of any child age 7 to 16 to attend school regularly without lawful reason, shall report such violation to the building Principal. The Principal shall immediately cause an investigation into any such report to be made. The Principal shall also investigate any case when of his or her personal knowledge, or by report or complaint from any resident of the district, the Principal believes that any child is unlawfully absent from school. The school shall render all services in its power to compel such child to attend some public, private, denominational, or parochial school, which the person having control of the child shall designate, in an attempt to remediate the child's truant behavior. Such services shall include, as appropriate, the services listed under the "Excessive Absenteeism" and "Reporting Habitual Truancy" policies.

Retention Retention will be strongly considered when a child has excessive absenteeism. Excessive absenteeism shall mean excused and/or unexcused absences of 5 or more days per quarter or the hourly equivalent or when the number of excused and/or unexcused absences exceeds 20 days cumulatively per school year or the hourly equivalent. In cases of excessive absenteeism, the Valentine Community Schools Retention Procedure and Evaluation Process will not apply. In cases of excessive absenteeism, final authority for retention rests with the Board of Education.

Section 3 - Tardiness

It is important that students arrive at school and to all classes on time. Students who are tardy are responsible for making up any work missed. Habitual tardiness will be handled as outlined in the procedures for excessive absences.

Tardy to School Students will be considered tardy to school if they are not seated in their assigned class or ready and attentive in their assigned area when school is scheduled to begin.

Section 4 - Leaving School

Students who must leave school for any reason during the school day must be cleared in advance by a note or phone call from the student's parent or legal guardian. No pupil is to leave school during school hours without permission from the teacher or Principal. Failure to notify the office constitutes a skip which is punishable by making up twice the time.

Students who leave without permission and without being excused in the proper manner will be considered truant. Repeated violations will be dealt with by the Administration.

Section 5 - Attendance is Required to Participate in Activities

Students must be in school and remain all day the day of any scheduled school activity in order to participate in the activity. This includes sports contests, practices, music and drama performances, and dances. Failure to be in attendance at school on the day of a scheduled activity will result in a student being withheld from participation in the activity. The Principal retains the right to grant participation should exceptional circumstances prevail.

ARTICLE 5 - SCHOLASTIC ACHIEVEMENT

Section 1 - Curriculum

Valentine Community Schools strive to provide a quality, comprehensive educational program. Students are assessed throughout the school year by a variety of assessment tools. The educational program is continually monitored and regularly revised.

Reading - The Scott Foresman reading series is the support for the curriculum. Instruction in reading utilizes the findings of the National Reading Panel and its recommendations for instruction and assessment in: phonemic awareness, phonics, fluency, vocabulary, and text comprehension.

Language Arts - The language arts program is based on the belief that spoken and written language are the tools by which children learn about themselves and the world around them. The program emphasizes language awareness, grammar, mechanics, and usage. The 6-Traits of Writing are taught at all levels.

Spelling and Handwriting - The spelling curriculum is arranged to enhance a child's natural progression as a speller. It presents development strategies in a logical and consistent manner beginning with words that follow phonetically regular patterns; then progressing to word structure; and on to more complex, derived forms. Cursive writing is introduced in second grade and reinforced through fifth grade with D'Nealian materials.

Math - The math curriculum emphasizes problem solving and thinking mathematically while maintaining strong basic math skills. The program helps students to develop the confidence, knowledge, and techniques for using mathematics to solve everyday problems and to help them adapt to a world that is constantly changing. The Scott Foresman series is used in first through fifth grades. Grades 6-8 use McDougal-Littell Math courses 1, 2, and Pre-Algebra. The McDougal-Littell Algebra I course may be offered to those Eighth graders who have successfully completed a prerequisite Pre-Algebra course as Seventh Graders. Eighth graders earning at least an 85% will receive high school credit for this class at Valentine High School.

Science/Health - The Harcourt science series used in grades K-6 promotes the acquisition of skills to extend learning about our universe, our world, and our lives. Students refine and use thinking skills to make the most of the information and experiences that surround them. Hands on activities stimulate the child's curiosity to find answers to the why, how, and what of their world. Good mental, physical, and social health are keys to well adjusted students. The health curriculum supplements science and classroom guidance to form an essential knowledge of health and to maintain the good health behaviors that allow students to be well adjusted. Grades seven and eight use *Science and Technology* published by Holt. It is an activity and inquiry based science program emphasizing concept and skill development. Students learn science by thinking, talking, and writing about what they discover. Units include Cells, Heredity, and Classification; Environmental Science; Weather and Climate; Astronomy; Introduction to Matter; Human Body Systems and Health; Inside the Restless Earth; Earth's Changing Surface; Interactions of Matter; and Forces, Motion, and Energy.

Social Studies - The social studies program provides a basis for an informed and knowledgeable citizenship. Students develop an appreciation of our social heritage, a perspective for evaluating contem-

porary issues, and an understanding of the democratic process. Fourth grade children study regional and Nebraska history. Geography and map skills are included for all grades.

Art - Art is taught in the regular classroom and often used to enrich the core disciplines. Students are exposed to a variety of art mediums to develop an appreciation for art and to learn about basic art history.

Music - The elementary music program builds a foundation incorporating opportunities that encourage self-expression, appreciation, and enjoyment. A variety of music materials are used in regularly scheduled activities.

Physical Education - The physical education program is an important part of a student's education, enhancing intellectual, emotional and social development, as well as the physical well-being of the student. All grades participate in regularly scheduled activities organized on a developmental continuum that will lead to the development of coordination, strength, skill, endurance, and improved self concept.

KINDERGARTEN

Kindergarten is an integrated, interactive, hands-on program in which students develop social and academic skills. Academic emphasis is placed on readiness, reading, and math skills. Social skills promote peer cooperation, interest in school, and a love for learning. Generally, Kindergarten in the rural attendance centers will be three full days a week. Students entering kindergarten must be five years old on or before the fifteenth of October.

Section 2 - Grading/Report Cards

Report cards are distributed at the end of each quarter. Teachers are encouraged to notify parents whenever a student has had a drastic decline in grades. The kindergarten report card uses a checklist of skills. Report cards use the following grading scale:

A	93	-	100	S	-	Satisfactory
B	85	-	92	N	-	Needs improvement
C	77	-	84			
D	70	-	76			
F	0	-	69			

Music, P.E., Technology, and Handwriting are reported using the following scale:

S – Satisfactory

N – Needs Improvement

Section 3 - Parent-Teacher Conferences

Parent-Teacher Conferences will be held twice each year. Refer to the school calendar for the schedule. Conferences with teachers, at any other time, are possible by calling the school and making arrangements with one or more teachers as needed.

Section 4 - Testing

A variety of assessment programs/materials is used to monitor and guide student progress. Most curricular areas have testing and progress systems built into the teaching materials. All students in grades two through eight are given the Stanford achievement tests and the OLSAT in the spring. Students in the first, fourth and eighth grades are assessed in the areas of math, reading, writing, speaking and listening in accordance with Nebraska state educational standards. These tests are used for school and district information and for feedback to parents and students. Results may be used to determine qualification for special programs.

Section 5 - Promotion & Retention

The professional staff of Valentine Community Schools will place students at the grade level and in the courses best suited to them academically, socially, and emotionally.

Students will typically progress annually from grade to grade. A student, however, may be retained at a grade level when, in the judgment of the professional staff, retention is in the best interest of the student. Parents will be notified prior to the final decision. The final decision will rest with school authorities.

Retention **MUST** be considered when a child has excessive absenteeism. Excessive absenteeism is defined as a student missing more than twenty days during the school year or more than five days per quarter. In cases of excessive absenteeism the Valentine Community Schools Retention Procedure and Evaluation Process will not apply. In cases of excessive absenteeism, final authority for retention rests with school authorities.

ARTICLE 6 - SPECIAL PROGRAMS AND SERVICES

Section 1 - Counseling and Guidance Services

Valentine Community Schools' guidance program is based upon the belief that growth and development during the early years of schooling are the most significant in the total education of the child. Counseling in the formative years assists in the development of social skills that are fundamental in everyday interaction with others. The focus of school guidance is to develop skills, prevent problems and assist in resolving conflicts. The counseling program provides individual and group counseling, classroom guidance, and support guidance based upon individual and school need. Student referrals to the Counselor may be made directly by parents, the student's teachers, or the building Principal.

Section 2 - Crisis Team

The Crisis Team is a support service which helps our schools assess, plan, and intervene in crises affecting staff and students. A pre planned, organized approach has been shown to be effective in reducing the emotional and social impact of a crisis. The Valentine Community Schools' Crisis Team has had specialized training to assist building administrators in directing crisis resolution activities. The team is made up of staff members from the elementary, middle, and high school.

Section 3 - Enrichment

Nebraska State Law requires that school districts identify learners with high ability. Valentine Community Schools have an education program that serves to enrich the curriculum for all students and to differentiate the curriculum for students with high ability. Classroom teachers will be assisted in their efforts to provide for individual learning needs as requested.

Section 4 - Library/Media

Library/media services include research materials, general reading materials, and various technologies. Computers for students and teachers are used for word processing, instruction, and research. Other technology supported through the library/media center includes electronic research materials, access to the Internet, and video equipment.

Section 5 - Special Education

Special Education is federally mandated and partially state funded program for any student in need of special assistance. Upon recommendation by the school's Student Assistance Team, a student will be tested. The Multidisciplinary Team then verifies the student. Parent involvement and permission for placement of a student in this program is required. Valentine Community Schools' program is designed to provide comprehensive services in the least restrictive environment for each verified student and to develop each student's skills to his/her maximum ability. The building Principal is the first contact regarding referrals to the special education program and resolution of special education disputes.

Section 6 - Student Assistance Team

The Student Assistance Team (SAT) works in cooperation with classroom teachers and parents of a child who has exhibited a learning difficulty to implement intervention strategies for use in the regular

classroom. The student's performance is closely monitored and documented to determine whether instruction in the regular classroom is sufficient or if the student should be referred for special education evaluation. The building principal is the first contact regarding referrals for special education and resolution of special education disputes.

Section 7 - Speech and Language

Speech therapy services are provided for eligible preschool and school-aged children exhibiting speech-language deficits. Upon recommendation of the Student Assistance Team, students are tested to determine eligibility. The speech-language pathologist's functions can include assessment, multidisciplinary team involvement, collaborative IEP development and implementation, direct therapy, and recommendation regarding appropriate placement of children. Additionally, consultation is extended to staff members and parents.

Section 8 - Title I

Title I is a federally funded student assistance program designed to improve student learning. The plan is written locally according to state and federal guidelines. Valentine Elementary and Valentine Middle School run a schoolwide Title I program.

Section 9 - Health and Safety Services

Valentine Community Schools will maintain health and accident records and will oversee student possession and use of medication. The purpose of keeping health and accident records is to provide information for and support of a comprehensive safety education program for all children and district personnel. Accident reports promote the safe and efficient operation of the school system as well as the protection and education of the students. To ensure a safe school environment, Valentine Community Schools will use the guidance and assistance of the Nebraska Department of Health and Human Services, the Cherry County Clinic, and the Valentine Medical Clinic.

Medical Information to be Provided to the District

All parents/guardians must complete a health questionnaire for each student. If the student is allergic to certain medication, foods or substances, has asthma, or is prone to seizure or other illness, the student's parents, guardian, and/or physician shall provide the school, in writing, with the following information on or by the first day of school:

- A. Name of medications, foods or substances to which the student is allergic.
- B. The serious illness(es) to which the student is susceptible, the triggers, and initial symptoms.
- C. If the student is susceptible to an illness, or allergic reaction, the steps to be taken by school personnel in the event the illness or allergic reaction occurs.

Student Illness or Injury

School personnel will notify parents when a student needs to be sent home from school due to illness. Conditions requiring a student be sent home include: temperature greater than 100°F., vomiting, diarrhea, unexplained rashes, live head lice, or a determination that the child's condition prevents meaningful participation in the educational program, presents a health risk to the child or others, or that medical consultation is warranted unless the condition resolves. If the student does not have a fever, he/she will be encouraged to stay in school. Should the student's condition deteriorate, their parent or guardian will be notified. Please include emergency daytime phone numbers when enrolling your child so that you or an emergency contact can be reached if your child becomes ill or injured while at school. Also, please inform the school of any health related information you feel is important for your student's success in the classroom and/or safety at school. Parents who have students with asthma or severe allergies will be asked to provide more specific information to the School Nurse.

Unless an injury is of a minor nature, the student's parent(s) or guardian will be notified. If the parent(s) or guardian cannot be reached, the student's emergency contact person will be notified. If the student's parent(s) or their emergency contact person cannot be reached, the school shall decide if an ambulance is necessary. Any accident resulting in injury will be reported to the principal's office. The well-being of the students is our foremost concern. Should a medical situation arise, the school may call for an ambulance. Parents or the student's emergency contact will be notified.

Communicable Disease Guidelines

Chicken Pox - Exclude for no less than 6 days* after the appearance of first crop of vesicles and student is without fever and vesicles are dry.

Colds - May return if no fever.

Conjunctivitis (Pink Eye) - May return when eye is normal in appearance or with written physician approval.

Fifth's Disease - Exclude until fever and malaise are gone. May return with rash with written physician approval.

Impetigo - Exclude until lesions are treated. May return with written documentation from physician.

Lice (Head or Body) - Exclude until verification of appropriate treatment method.

Ringworm - Exclude until treatment is started.

Strep Infections (Scarlet Fever, Scarletina, Strep Throat) - Exclude until no fever and under treatment for 24 hours.

**Day of onset of specific symptoms is counted as day zero, the day after onset is day 1.*

Medications

Whenever possible your child should be provided medications by you outside of school hours. In the event it is necessary that the child take or have medication available at school, the parent/guardian must provide a signed written consent for the child to be given medication at school. A consent form is available in the school office.

Possession And Use of Medication Prescribed medication shall not be brought to school unless a physician's written directions state that the prescribed medication must be taken during school hours or during school activities. Medication should be taken at home whenever possible.

Prescribed Medication The student or the student's parents or guardian must provide the Principal with a physician's written orders which prescribe the type and amount of medication. A current prescription label will satisfy the requirements of this paragraph. In addition, a written authorization permitting the use of the medication and giving the school permission to call the prescribing physician with questions must be signed by the student's parents or guardian and taken to the teacher along with the medication. This must be done each time prescribed medication is needed. The school nurse may limit medication dosages to levels listed in current drug reference publications.

Non-prescribed/Over-the-Counter Medication A written authorization permitting the use of the non-prescribed over-the-counter medication must be signed by the student's parents or guardian and provided to the teacher **along with the medication in the original box/container**. This must be done for each type of medication needed (i.e., cough drops, Tylenol, etc.). The school may also require a written authorization signed by a physician giving the school permission to telephone that physician with questions.

Taking of Non-prescribed/Over-the-Counter and Prescribed Medication The ingestion, taking, or application of medication, including nebulizers, shall be performed under the direct supervision and observation of the teacher or the teacher's designee, and administered as directed by the student's parent or guardian for non-prescribed medication, and as directed by the student's physician in the case of prescribed medication.

Medication Containers Medications must be provided to the school by the parent/guardian in the pharmacy-labeled or manufacturer-labeled bottle/container. Repackaged medications will not be accepted.

Custody and Storage of Medication Medication delivered to the teacher shall be stored in the area designated by the teacher. The storage area shall either be locked or under the control of a designated school employee.

Medication Quantity No more than one week's supply of prescribed medication shall be provided or delivered to the school by the student or student parent or guardian, unless there is a written order by a physician requiring a greater supply.

Transfer of Medication to Other Students Students are prohibited from transferring or delivering any over-the-counter or prescribed medication to other students. Violation of this subsection will authorize the confiscation of the medication by the District, and subject the student to student discipline.

Inhalers Students may use inhalers without supervision or monitoring by the teacher. However, if the inhaler is a prescribed medication, the teacher will be advised by the student's parent, guardian, or physician in writing of the inhaler's frequency of use. If school personnel observe a student using an inhaler in excess of the directions on the inhaler or more frequently than would be considered reasonable, it shall be reported to the Principal's office in which case the student's future use of the inhaler shall be supervised by the teacher.

Finger Stick Blood Test Parents of students who have diabetes, and students with diabetes, should notify the school at the beginning of the school year and provide the school with all required information. Students who have been taught finger stick blood tests shall follow those procedures.

Immunization Requirements

Students must show proof of immunization upon enrollment in Valentine Community Schools. Any student who does not comply with the immunization requirements will not be permitted to continue in school. **Please refer to the Summary of School Immunization Rules and Regulations below to determine compliance with Nebraska state law.** For students with medical reasons or sincerely held religious beliefs that do not allow immunizations, parents must provide a waiver statement with a doctor's signature stating that the immunization(s) would be medically risky or, in the case of refusal due to religious beliefs, a notarized affidavit stating that the immunization(s) conflict with the family's religious beliefs must be provided. Medical waiver and religious affidavit forms are available in the school office.

Note: Students with a signed waiver statement may be excluded from school in the event of a disease outbreak.

The cost of such physical examination is to be borne by the parents or guardian of each child examined. A parent or guardian who objects may submit a written statement of refusal for his or her child. The statement will be kept with the student's records.

School Health Screening

Students are screened annually for vision, hearing, blood pressure, dental defects, height and weight by qualified Educational Service Unit (ESU) personnel. The screening program also incorporates scoliosis screening for sixth through eighth grades. Students about whom health concerns are identified to the school nurse may also be screened. Parents are notified of any health concerns as they are identified. Parents who do not want their child to participate in the school screening program must communicate this in writing to the school at the start of the school year. As Nebraska statutes require school-age screening, parents who remove their child from the screening program must submit findings from an alternate medical provider to the school by December 1.

Asthma-Severe Allergy Protocol

If a student or staff member experiences a **life-threatening** asthma attack or systemic allergic reaction (anaphylaxis) anytime during the school day in the school building the following protocol will be implemented.

The protocol requires 911 be called first. After that call is made, an Epi-Pen injection will be given and then albuterol is provided through a nebulizer. An Epi-Pen is a small pre-filled automatic injection device that resembles a highlighter. It is used to deliver epinephrine. Epinephrine is a medication that is used to bring quick relief by improving breathing and lung function. Albuterol is another medication that is used to bring breathing relief (commonly found in rescue inhalers). The nebulizer is a machine that mixes the albuterol with air to provide a fine mist for inhaling through a mask or mouthpiece.

The protocol steps are designed to provide quick, effective care in order to prevent death due to a severe asthma attack or anaphylaxis. Staff members have been trained to recognize signs and symptoms of a life-threatening breathing emergency and to properly administer the medications. The protocol is a standing medical order that has been signed by Dr. Mulligan-Witt.

If you know that your child has asthma or a known allergy, it is **critically important** that you communicate this information to our school nurses. In rural attendance centers parents must also notify the classroom teacher. A school health form is an ideal place to provide this basic information, and you will receive a more detailed form to fill out if more information is needed. For each student with a known severe allergy or asthma, you must provide the school with:

- 1) Specific information about the condition
- 2) Instructions
- 3) Medications as directed by a physician, PA, or APRN

In the event that your student experiences a life-threatening asthma attack or systemic allergic reaction, we will defer to the specific documents and medications that you have provided. If you do not have medical documentation and instructions on file with the school for your student, we will defer to the

regulatory protocol described above.

If, for whatever reason, you do not want your student to receive the life-saving emergency treatment under the protocol, you must file your written objection with the school.

One of the primary objectives shall be the prevention of illicit drug and alcohol use by students. It shall further be the policy of the District to encourage the use of outside resource personnel such as law enforcement officers, medical personnel, and experts on the subject of drug and alcohol abuse, so that its economic, social, educational, and physiological consequences may be made known to the students of the District.

It shall further be the policy of the District, through the instruction earlier herein referred to, as well as by information and consistent enforcement of the Board's policy pertaining to student conduct as it relates to the use of illicit drugs and the unlawful possession and use of alcohol, that drug and alcohol abuse is wrong and is harmful both to the student and the District, and its educational programs.

Drug and Alcohol Counseling, Rehabilitation and Re-entry Programs Information concerning drug and alcohol counseling, rehabilitation, and reentry programs is available to any student from the Guidance Counselor or other appropriate school personnel.

In the event of disciplinary proceedings against any student for any District policy pertaining to the prohibition against the unlawful possession, use, or distribution of illicit drugs and alcohol, appropriate school personnel shall confer with any such student and his or her parents or guardian concerning available drug and alcohol counseling, rehabilitation, and reentry programs that appropriate school personnel shall consider to be of benefit to any such student and his or her parent or parents or guardian.

Drugs and Alcohol Prohibited - Standards of Conduct for Students and Employed Staff

The manufacture, possession, selling, dispensing, use or being under the influence of alcohol or any alcoholic beverage or alcoholic liquor on school grounds, or during an educational function, or event off school grounds, or off school grounds if there is a substantial interference with school purposes, is prohibited.

3. Parents and students shall be given a copy of the standards of conduct and disciplinary sanctions required and shall be notified that compliance with the standards of conduct is mandatory.

Intervention The Valentine Community Schools District does not have the authority or responsibility to make medical or health determinations regarding chemical dependency. However, when observed behavior indicates that a problem exists which may affect the student's ability to learn or function in the educational climate or activity, the school then has the right and responsibility to refer the student for a formal chemical dependency diagnosis based on behavior observed by school staff. The school will issue a statement to all students and employed staff that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful. The school shall make available to students and employed staff information about any drug and alcohol counseling, and rehabilitation and reentry programs, which are available to students.

Administration The Administration of Valentine Community Schools is authorized to adopt such administrative rules, regulations or practices necessary to properly implement this policy. Such regulations, rules or practices may vary the procedures set forth herein to the extent necessary to fit the circumstances of an individual situation. Such rules, regulations and practices may include administrative forms, such as checklists to be used by staff to record observed behavior and to determine the proper plan of action.

Safe and Drug-Free Schools – Parental Notice Pursuant to the provisions of the No Child Left Behind Act, if upon receipt of information regarding the content of safe and drug free school programs and activities other than classroom instruction, a parent who objects to the participation of their child in such programs and activities may notify the School District of such objection in writing. Upon receipt of such notice, the student will be withdrawn from the program or activity to which parental objection has been made. **Note: Written parent requests to have a student excused from testing, classroom instruction, and other school experiences may be granted when possible and educationally appropriate. Requests should be submitted to the school administration within a reasonable time prior to the testing, classroom instruction, or other school experience, and should be accompanied by a written explanation for the request. A plan for an acceptable alternative shall be approved by the administration prior to, or as a part of, the granting of any parent request.**

ARTICLE 8 - STUDENT RIGHTS, CONDUCT, RULES AND REGULATIONS

Section 1 - Student Conduct and Discipline Policies

Good discipline originates in the home. The parent is the first teacher of a child and should help the child to develop good behavior habits and proper attitudes toward school. A parent should:

- Recognize that the student's discipline at school is the school's responsibility.
- Teach the child respect for law, authority, the rights of others, and for private and public property.
- Arrange for prompt and regular school attendance and comply with attendance rules and procedures.

- Work with the school in carrying out recommendations made in the best interest of the child.
- Talk with the child about school activities; show an active interest in report cards and progress.

Valentine Community Schools feels it is important to maintain contact with parents concerning student behavior.

The common goal of students, parents, faculty and administration of Valentine Community Schools is to maintain a school atmosphere which is conducive to learning. In order to achieve this, Valentine Community Schools will continue to review and distribute a set of reasonable and fair rules and policies. **VIOLATIONS OF THE VALENTINE COMMUNITY SCHOOL'S RULES AND POLICIES WILL RESULT IN DISCIPLINARY ACTION.**

Part 1: Forms of School Discipline

Short-Term Suspension Students may be excluded by the Principal or his designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

1. Conduct constituting grounds for expulsion as hereinafter set forth; or,
2. Other violations of rules and standards of behavior adopted by the Valentine Community Schools Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

1. The Principal or the Principal's designee shall make a reasonable investigation of the facts and circumstances. In addition, such short-term suspension will be made only after a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
2. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
3. Within 24 hours or such additional time as is reasonably necessary following the suspension, the Principal or administrator will send a written statement to the student, and the student's parent or guardian, describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or Administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or Administrator shall determine who in addition to the parent or guardian is to attend the conference.
4. Students must complete all school work before returning to class and credit is given.

Long-Term Suspension Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of more than five school days but less than twenty school days on (long-term suspension) the conduct constituting grounds for expulsion as hereinafter set forth. The process for long-term suspension is hereinafter set forth.

Expulsion

1. **Meaning of Expulsion** Expulsion shall mean exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion

shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period.

2. **Summer Review** Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year. The review will be conducted by the hearing officer who conducted the initial expulsion hearing, or a hearing officer appointed by the Superintendent in the event no hearing was previously held or the initial hearing officer is no longer available or willing to serve, after the hearing officer has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing officer that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the Superintendent.
3. **Suspension of Enforcement of an Expulsion** Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect, and as a condition of such suspended action, the student may be assigned to a school, class, or program and to such other consequences which the school district deems appropriate. In lieu of other authorized educational programs to which the student may be assigned, such school, class, or program may be offered as a community-centered classroom and may include experiences for the student as an observer or aide in governmental functions, as an on-the-job trainee, and as a participant in specialized tutorial experiences or individually prescribed educational and counseling programs. Such programs shall include an individualized learning program to enable the student to continue academic work for credit toward graduation. At the conclusion of the designated period: (1) if the student has satisfactorily participated in the school, class, or program to which such student has been assigned the student shall be reinstated and permitted to return to the school of former attendance or to attend other programs offered by the district, and action to expunge the record of the expulsion action may be taken at the discretion of the Superintendent or his or her designee, or (2) if the student's conduct has been unsatisfactory, the expulsion action shall be enforced. The determination of whether the students' participation and conduct has been satisfactory or not shall be made by Principal or the Principal's designee.
4. **Students Subject to Juvenile or Court Probation** Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal's designee shall meet with the student's probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal's designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for

evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

Other Forms of Student Discipline Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but need not be limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions during the day. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures and a failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

Part 2: Grounds for Student Discipline

Students have an opportunity to learn by sharing some of the responsibility for creating a good learning environment. To help maintain a quality instructional environment for all students attending Valentine Community Schools, are expected to refrain from the following conduct.

Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment

7. Public indecency;

8. Engaging in bullying as defined in section 79-2,137;
9. Sexually assaulting or attempting to sexually assault any person. In addition, if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults, the student is subject to suspension, expulsion, or mandatory reassignment regardless of where the conduct took place. For purposes of this subdivision, sexual assault shall mean sexual assault in the first degree and sexual assault in the second degree as defined in sections 28-319 and 28-320, as such sections now provide or may hereafter from time to time be amended;

 - a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or,

The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing. The term "to school" or "at school" means on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event.

Such plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.
- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

Additional Student Conduct Rules

The following additional student conduct rules are established. Wearing apparel shall not disrupt or interfere with the school environment or activity and/or educational objectives. Students should not dress in a manner that is dangerous to the health and safety of anyone or interferes with the learning environment or teaching process in our school. A list of attire that will not be permitted in the school setting follows. This list is not exclusive. The Principal, Superintendent, or Administration designee is responsible for making the final determination of whether or not a student's attire and grooming is appropriate for the school setting.

Consideration will be given students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student may review additional postings of prohibited items or grooming as may be available in the Principal's office or contact the Principal directly for approval.

Coaches, activity sponsors, and teachers may have additional dress requirements for students who are in special lab classes, participating in performing groups or representing the school as part of an extracurricular activity program.

On the first violation of the dress code, the student may telephone home for proper apparel to be brought to school for changing. If clothes cannot be brought to school for the student to change into, the student will be assigned to in-school suspension for the remainder of the day. Students will not be permitted to leave school to change clothes. Continual violations of the dress code will result in disciplinary actions under the Student Code of Conduct above. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), the first violation may result in discipline, up to expulsion.

A certified copy has the raised seal of the state of Nebraska on it and is signed by the Director of Vital Statistics.*

If a birth certificate is unavailable, other reliable proof of a student's identity may be used. These documents could include naturalization or immigration documents showing date of birth or official hospital birth records, a passport, or a translation of a birth certificate from another country. The documents must be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate.

Section 4 - Parent Involvement in the Schools

Section 3 - Antidiscrimination and Harassment Policy

Elimination of Discrimination The Valentine Community Schools hereby gives this statement of compliance and intent to comply with all state and federal laws prohibiting discrimination or harassment and requiring accommodations. This school district intends to take necessary measures to assure compliance with such laws against any prohibited form of discrimination or harassment or which require accommodations.

Preventing Harassment and Discrimination.

Purpose Valentine Community Schools is committed to offering employment and educational opportunity to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination or harassment of any kind by administrators, teachers, coworkers, students or other persons is prohibited. In addition, the Valentine Community Schools will try to protect employees and students from reported discrimination or harassment by non-employees or others in the work place and educational environment.

For purposes of this policy, discrimination or harassment based on a person's race, color, religion, national origin, sex, disability or age is prohibited. The following are general definitions of what might constitute prohibited harassment.

In general, ethnic or racial slurs or other verbal or physical conduct relating to a person's race, color, religion, disability or national origin constitute harassment when they unreasonably interfere with the person's work performance or create an intimidating work, instructional or educational environment.

Age harassment (40 years of age and higher) has been defined by federal regulations as a form of age discrimination. It can consist of demeaning jokes, insults or intimidation based on a person's age.

Sexual harassment is defined by federal and state regulations as a form of sex discrimination. It can consist of unwelcome sexual advances, requests for sexual favors, or physical or verbal conduct of a sexual nature by supervisors or others in the work place, classroom or educational environment.

Sexual harassment may exist when:

- Submission to such conduct is either an explicit or implicit term and condition of employment or of participation and enjoyment of the school's programs and activities;
- Submission to or rejection of such conduct is used or threatened as a basis for employment related decisions, such as promotion, performance, evaluation, pay adjustment, discipline, work assignment, etc., or school program or activity decisions, such as admission, credits, grades, school assignments or playing time.
- The conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working, class room or educational environment.

Sexual harassment may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually oriented "kidding" or "teasing", "practical jokes", jokes about gender-specific traits, foul or obscene language or gestures, displays of foul or obscene printed or visual material, and physical contact, such as patting, pinching or brushing against another's body.

Complaint and Grievance Procedures

Employees or students should initially report all instances of discrimination or harassment to their immediate supervisor or classroom teacher. However, if the employee or student is uncomfortable in presenting the problem to the supervisor or teacher, or if the supervisor or teacher is the problem, the employee or student is encouraged to go to the next level of supervision. In the case of a student, the Principal would be the next or alternative person to contact.

If the employee or student's complaint is not resolved to his or her satisfaction within five (5) to ten (10) calendar days, or if the discrimination or harassment continues, or if as a student you feel you need immediate help for any reason, please report your complaint to the Superintendent of Valentine Community Schools. If a satisfactory arrangement cannot be obtained through the Superintendent of Valentine Community Schools, the complaint may be processed to the Board of Education.

The supervisor, teacher or the Superintendent of Valentine Community Schools will thoroughly investigate all complaints. These situations will be treated with the utmost confidence, consistent with resolution of the problem. Based on the results of the investigation, appropriate corrective action, up to and including discharge of offending employees, and disciplinary action up to expulsion against a harassing student, may be taken. Under no circumstances will any threats or retaliation be permitted to be made against an employee or student for alleging in good faith a violation of this policy.

NOTE: In no way is the grievance procedure meant to lessen the legal authority of the school officials to deal with disruptive students. Rather, it is a means of inviting student communication on matters of concern to the school and its students, short of having to engage in disruptive behavior in order to be noticed and to have grievance redressed. A grievance form may be obtained at the principal's office.

Section 4 - Notice to Parents of Rights Afforded by Section 504 of the Rehabilitation Act of 1973

The following is a description of the rights granted by federal law to qualifying students with disabilities. The intent of the law is to keep you fully informed concerning the decisions about your child and to inform you of your rights if you disagree with any of these decisions. You have the right to:

2. Have the school district advise you of your rights under federal law.
3. Receive notice with respect to Section 504 identification, evaluation and/or placement of your child.
4. Have your child receive a free appropriate public education. This includes the right to be educated with nondisabled students to the maximum extent appropriate. It also includes the right to have the school district make reasonable accommodations to allow your child an equal opportunity to participate in school and school-related activities.
5. Have your child educated in facilities and receive services which are comparable to those provided to nondisabled students.
6. Have your child receive exceptional education and related services if he/she is found to be eligible under the Individuals with Disabilities Education Act (20 USC Chapter 33, PL 101-4761).
7. Have an evaluation, educational recommendation and placement decision developed by a team of persons who are knowledgeable of the student, the assessment data and any placement options.

9. Have your child be given an equal opportunity to participate in nonacademic and extracurricular activities offered by the district.
10. Examine all relevant records relating to decisions regarding your child's Section 504 identification, evaluation educational program and placement.
11. Obtain copies of educational records at a reasonable cost unless the fee would effectively deny you access to the records.
12. Obtain a response from the school district to reasonable requests for explanations and interpretations of your child's records.
13. Request amendment of your child's educational records if there is reasonable cause to believe that they are inaccurate, misleading or otherwise in violation of the privacy rights of your child. If the school district refuses this request for amendment, it shall notify you of your right to an impartial hearing.
14. Request mediation or file a grievance in accordance with the school district's Section 504 grievance procedures.
15. Request an impartial hearing regarding the Section 504 identification, evaluation or placement of your child. You and the student may take part in the hearing and have an attorney represent you.
16. File a formal complaint with the U.S. Department of Education.

Section 5 - Notification of Rights Under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the district receives a request for access. Parents or eligible students should submit to the school principal a written request that identifies the record(s) they wish to inspect. The principal will make

arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the school district to amend a record that they believe is inaccurate or misleading. They should write the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Finally, Valentine Community Schools will give timely notice to you if your child has been assigned, or has been taught for four or more consecutive weeks by a teacher who does not meet the requirements of the Act.

Section 8 - Student Privacy Protection Policy

It is the policy of Valentine Community Schools to develop and implement policies which protect the privacy of students in accordance with applicable laws. The District's policies in this regard include the following:

Right of Parents to Inspect Surveys Funded or Administered by the United States Department of Education or Third Parties Parents shall have the right to inspect, upon the parent's request, a survey created by and administered by either the United States Department of Education or a third party (a group or person other than the District) before the survey is administered or distributed by the school to the parent's child.

Protection of Student Privacy in Regard to Surveys of Matters Deemed to be Sensitive The District will require, for any survey of students which contain one or more matters deemed to be sensitive (see section headed "Definition of Surveys of Matters Deemed to be Sensitive"), that suitable arrangements be made to protect student privacy (that is, the name or other identifying information about a particular student). For such surveys, the District will also follow the procedures set forth in the section entitled: "Notification of and Right to Opt Out of Specific Events."

Right of Parents to Inspect Instructional Materials Parents shall have the right to inspect, upon reasonable request, any instructional material used as part of the educational curriculum for their child. Reasonable requests for inspection of instructional materials shall be granted within a reasonable period of time after the request is received. Parents shall not have the right to access academic tests or academic assessments, as such are not within the meaning of the term “instructional materials” for purposes of this policy. The procedures for making and granting a request to inspect instructional materials are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal. The building principal, within five (5) school days, shall consult with the teacher or other educator responsible for the curriculum materials. In the event the request can be accommodated, the building principal shall make the materials available for inspection or review by the parent, at such reasonable times and place as will not interfere with the educator’s intended use of the materials. In the event there is a question as to the nature of the curriculum materials requested or as to whether the materials are required to be provided, the building principal shall notify the parent of such concern, and assist the parent with forming a request which can reasonably be accommodated. If the parent does not formulate such a request, and continues to desire certain curriculum materials, the parent shall be asked to make their request to the Superintendent.

Rights of Parents to be Notified of and to Opt Out of Certain Physical Examinations or Screenings The general policy and practice of the District is to not administer physical examinations or screenings of students which require advance notice or parental opt-out rights under the applicable federal laws, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law; and (3) surveys administered to students in accordance with the Individuals with Disabilities Education Act. For physical examinations or screenings which do not fit into the applicable exceptions, the District will follow the procedures set forth in the section entitled: “Notification of and Right to Opt Out of Specific Events.”

Protection of Student Privacy in Regard to Personal Information Collected from Students The general policy and practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. The District will make reasonable arrangements to protect student privacy to the extent possible in the event of any such collection, disclosure, or use of personal information. “Personal information” for purposes of this policy means individually identifiable information about a student including: (1) a student or parent’s first and last name, (2) home address, (3) telephone number, and (4) social security number. The term “personal information,” for purposes of this policy, does not include information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions. This exception includes the following examples: (i) college or post secondary education recruitment, or military recruitment; (ii) book clubs, magazines, and programs providing access to low-cost literary products; (iii) curriculum and instructional materials used by elementary schools and secondary schools; (iv) tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about student, or to generate other statistically useful data for the purpose of securing such tests and assessments, and the subsequent analysis and public release of the aggregate data from such tests and assessments; (v) the sale by student of products or services to raise funds for school-related or education-related activities; (vi) student recognition programs.

Parental Access to Instruments used in the Collection of Personal Information While the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information, parents shall have the right to inspect, upon reasonable request, any instrument which may be administered or distributed

to a student for such purposes. Reasonable requests for inspection shall be granted within a reasonable period of time after the request is received. The procedures for making and granting such a request are as follows: the parent shall make the request, with reasonable specificity, directly to the building principal and shall identify the specific act and the school staff member or program responsible for the collection, disclosure, or use of personal information from students for the purpose of marketing that information. The building principal, within five (5) school days, shall consult with the school staff member or person responsible for the program which has been reported by the parent to be responsible for the collection, disclosure, or use of personal information from students. In the event such collection, disclosure, or use of personal information is occurring or there is a plan for such to occur, the building principal shall consult with the Superintendent for determination of whether the action shall be allowed to continue. If not, the instrument for the collection of personal information shall not be given to any students. If it is to be allowed, such instrument shall be provided to the requesting parent as soon as such instrument can be reasonably obtained.

Annual Parental Notification of Student Privacy Protection Policy The District shall provide parents with reasonable notice of the adoption or continued use of this policy and other policies related to student privacy. Such notice shall be given to parents of students enrolled in the District at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in such policies.

Notification to Parents of Dates of and Right to Opt Out of Specific Events The District shall directly notify the parents of the affected children, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when any of the following activities are scheduled, or are expected to be scheduled:

The collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information. (Note: the general practice of the District is to not engage in the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information).

Surveys of students involving one or more matters deemed to be sensitive in accordance with the law and this policy; and,

Any non-emergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student or of other students. (Note: the general practice of the District is to not engage in physical examinations or screenings which require advance notice, for the reason that the physical examinations or screenings to be conducted by the District will usually fit into one of the following exceptions to the advance notice requirement and parental opt-out right: (1) hearing, vision, or scoliosis screenings; (2) physical examinations or screenings that are permitted or required by an applicable State law, and (3) surveys administered to students in accordance with the Individuals with Disabilities Education Act).

Parents shall be offered an opportunity in advance to opt their child out of participation in any of the above listed activities.

In the case of a student of an appropriate age (that is, a student who has reached the age of 18, or a legally emancipated student), the notice and opt-out right shall belong to the student.

Definition of Surveys of Matters Deemed to be Sensitive Any survey containing one or more of the following matters shall be deemed to be “sensitive” for purposes of this policy:

1. Political affiliations or beliefs of the student or the student’s parent;
2. Mental or psychological problems of the student or the student’s parent;
3. Sex behavior or attitudes;

4. Illegal, antisocial, self-incriminating or demeaning behavior;
5. Critical appraisals of other individuals with whom the student has close family relationships;
6. Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
7. Religious practices, affiliations, or beliefs of the students or the student's parent;
8. Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Section 9 - Parental Involvement Policies

A. General - Parental/Community Involvement in Schools:

Valentine Community Schools welcomes parental involvement in the education of their children. We recognize that parental involvement increases student success. It is Valentine Community Schools' policy to foster and facilitate, to the extent appropriate and in their primary language, parental information about, and involvement in, the education of their children. Policies and regulations are established to protect the emotional, physical and social well-being of all students.

1. Parental involvement is a part of the ongoing and timely planning, review and improvement of district and building programs.
2. Parents are encouraged to support the implementation of district policies and regulations.
3. Parents are encouraged to monitor their student's progress by reviewing quarterly report cards and attending parent-teacher conferences.
4. Textbooks, tests and other curriculum materials used in the district are available for review by parents upon request.
5. Parents are provided access to records of students according to law and school policy.
6. Parents are encouraged to attend courses, assemblies, counseling sessions and other instructional activities with prior approval of the proper teacher or counselor and administrator. Parents' continued attendance at such activities will be based on the students' well-being.
7. Testing occurs in this school district as determined to be appropriate by district staff to assure proper measurement of educational progress and achievement.
8. Parents submitting written requests to have their student excused from testing, classroom instruction and other school experiences will be granted that request when possible and educationally appropriate. Requests should be submitted to the proper teacher or administrator within a reasonable time prior to the testing, classroom instruction or other school experience and should be accompanied by a written explanation for the request. A plan for an acceptable alternative shall be approved by the proper teacher and administrator prior to, or as a part of, the granting of any parent request.
9. Participation in surveys of students occurs in this district when determined appropriate by district staff for educational purposes. Parents will be notified prior to the administration of surveys in accordance with district policy. Timely written parental requests to remove students from such surveys will be granted in accordance with district policy and law. In some cases, parental permission must be given before the survey is administered.
10. Parents are invited to express their concerns, share their ideas and advocate for their children's education with board members, administrators and staff.
11. School district staff and parents will participate in an annual evaluation and revision, if needed, of the content and effectiveness of the parental involvement policy.

B. Title I Parental Involvement Policy:

This Title I Parental Involvement Policy is established in compliance with the No Child Left Behind Act of 2001. Valentine Community Schools has a parental involvement policy applicable to parents of all children. The parental involvement policy applicable to parents of all children is not replaced by this

Title I Parental Involvement Policy and shall continue to be applicable to all parents, including parents participating in Title I programs.

It is the policy of Valentine Community Schools to implement programs, activities, and procedures for the involvement of parents in Title I programs consistent with the Title I laws. Such programs, activities, and procedures shall be planned and implemented with meaningful consultation with parents of participating children.

Expectations for Parental Involvement It is the expectation of Valentine Community Schools that parents of participating children will have opportunities available for parental involvement in the programs, activities, and procedures of the District's Title I program. The term "parental involvement" means the participation of parents in regular, two-way, and meaningful communication involving student academic learning and other school activities, including ensuring – (A) that parents play an integral role in assisting their child's learning; (B) that parents are encouraged to be actively involved in their child's education at school; (C) that parents are full partners in their child's education and are included, as appropriate, in decision making and on advisory committees to assist in the education of their child; and (D) the carrying out of other activities, such as those described in this parental involvement policy. The District intends to meet this expectation through the following activities:

1. Involving parents in the joint development of the District's Title I plan and the processes of school review and school improvement.
2. Providing coordination, technical assistance, and other support necessary to assist participating schools in planning and implementing effective parental involvement activities to improve student academic achievement and school performance.
3. Building the schools' and parents' capacity for strong parental involvement.
4. Coordinating and integrating parental involvement strategies under Title I with parental involvement strategies under other programs.
5. Conducting, with the involvement of parents, an annual evaluation of the content and effectiveness of the parental involvement policy in improving the academic quality of the schools served under the Title I program, including identifying barriers to greater participation by parents in Title I programs, with particular attention to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background, and use the findings of such evaluation to design strategies for more effective parental involvement, and to revise, if necessary, the parental involvement policies of the District.
6. Involving parents in the activities of the schools served under Title I Policy Involvement: Each school served under the Title I program shall:
 - a. Convene an annual meeting, at a convenient time, to which all parents of participating children shall be invited and encouraged to attend, to inform parents of their school's participation under the Title I program and to explain the requirements of the Title I program.
 - b. Offer a flexible number of meetings, such as meetings in the morning or evening. If sufficient funds are provided for this purpose, the District may assist parental involvement in such meetings by offering transportation, child care, or home visits.
 - c. Involve parents, in an organized, ongoing, and timely way, in the planning, review, and improvement of Title I programs.
 - d. Provide parents of participating children: (1) timely information about programs under Title I, (2) a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the proficiency levels students are expected to meet; and (3) if requested by parents, opportunities for regular meetings to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children, and respond to any such suggestions as soon as practicably possible.

- e. If the District operates a school wide program under Title I and such plan is not satisfactory to the parents of participating children, submit any parental comments on the plan when the school makes the plan available to the District.

Shared Responsibilities for High Student Academic Achievement As a component of the District's parental involvement policy, each school served under the Title I program shall jointly develop with parents for all children served under the Title I program a school-parent compact that outlines how parents, the school, and students will share the responsibility for improved student academic achievement and the means by which the school and parents will build and develop a partnership to help children achieve the State's high standards. Such compact shall: (1) describe the school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables the children served under Title I to meet the State's student academic achievement standards and the ways in which each parent will be responsible for supporting their children's learning, such as monitoring attendance, homework completion, and television watching; volunteering in their child's classroom; and participating, as appropriate, in decisions relating to the education of their children and positive use of extracurricular time; and (2) address the importance of communication between teachers and parents on an ongoing basis through, at a minimum: (i) parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as the compact relates to the individual child's achievement; (ii) frequent reports to parents on their children's progress; and (iii) reasonable access to staff, opportunities to volunteer and participate in their child's class, and observation of classroom activities.

Building Capacity for Involvement To ensure effective involvement of parents and to support a partnership among the District, parents, and the community to improve student academic achievement, each school participating in the Title I program and the District: (1) shall provide assistance to participating parents, as appropriate, in understanding such topics as the State's academic content standards and State student academic achievement standards, State and local academic assessments, the requirements of Title I and how to monitor a child's progress and work with educators to improve the achievement of their children; (2) shall provide materials and training to help parents work with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parental involvement; (3) shall educate teachers, student service personnel, principals, and other staff, with the assistance of parents, in the value and utility of contributions of parents, and in how to reach out to, communicate with, and work with parents as equal partners, implement and coordinate parent programs, and build ties between parents and the school; (4) shall, to the extent feasible and appropriate, coordinate and integrate parent involvement programs and activities with Head Start, Reading First, Early Reading First, Even Start, the Home Instruction Programs for Preschool Youngsters, the Parents as Teacher Program, and public preschool and other programs, and conduct other activities, such as parent resource centers, that encourage and support parents in more fully participating in the education of their children; (5) shall ensure that information related to school and parent programs, meetings, and other activities is sent to the parents of participating children in a format, and to the extent practicable, in a language the parents can understand; (6) may involve parents in the development of training for teachers, principals, and other educators to improve the effectiveness of such training; (7) may provide necessary literacy training from funds received under Title I if the District has exhausted all other reasonably available sources of funding for such training; (8) may pay reasonable and necessary expenses associated with parental involvement activities, including transportation and child care costs, to enable parents to participate in school-related meetings and training sessions; (9) may train parents to enhance the involvement of other parents; (10) may arrange school meetings at a variety of times, or conduct in-home conferences between teachers or other educators, who work directly with participating children, with parents who are unable to attend such conferences at school, in order to maximize parental involvement and participation; (11) may adopt and implement model approaches to improving parental

involvement; (12) may establish a districtwide parent advisory council to provide advice on all matters related to parental involvement in programs supported under Title I; (13) may develop appropriate roles for community-based organizations and businesses in parent involvement activities; and (14) shall provide such other reasonable support for parental involvement activities under Title I as parents may request.

Accessibility In carrying out the parental involvement activities for this Title I Parental Involvement policy, the District shall provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities, and parents of migratory children, including providing information and school reports required under Title I in a format and, to the extent practicable, in a language such parents understand.

Use, Distribution, and Updating of this Policy This Title I Parental Involvement Policy shall be incorporated into the District's Title I plan, shall be distributed to parents of participating children, shall be made available to the local community, and shall be updated periodically to meet the changing needs of the parents and the school.

Section 10 - Homeless Students Policy

Homeless children for purposes of this Policy generally include children who lack a fixed, regular, and adequate nighttime residence, as further defined by applicable federal and state law.

No Stigmatization or Segregation of Homeless Students It is the District's policy and practice to ensure that homeless children are not stigmatized or segregated by the District on the basis of their status as homeless.

Homeless Coordinator The Superintendent shall serve as the District's designated Homeless Coordinator. The Homeless Coordinator shall serve as the school liaison for homeless children and youth and shall ensure that: (1) homeless children are identified by school personnel; (2) homeless children enroll in, and have a full and equal opportunity to succeed in, school; (3) homeless children and their families receive educational service for which they are eligible and referrals to health, dental, and mental health services and other appropriate services; (4) the parents or guardians of homeless children are informed of the educational and related opportunities available to their children and provided with meaningful opportunities to participate in the education of their children; (5) public notice of the educational rights of homeless children is disseminated where such children receive services under the federal homeless children laws, such as schools, family shelters, and soup kitchens; (6) enrollment disputes are mediated in accordance with law; and (7) the parents or guardians of homeless children, and any unaccompanied youth, are fully informed of transportation services available under law. The Homeless Coordinator shall coordinate with State coordinators and community and school personnel responsible for the provisions of education and related services to homeless children. The Homeless Coordinator may designate duties here under as the Homeless Coordinator determines to be appropriate.

Enrollment of and Services to Homeless Children A homeless child shall be enrolled in compliance with law and be provided services comparable to services offered to other students in the school in which the homeless child has been placed. Placement of a homeless child is determined based on the child's "school of origin" and the "best interests" of the child. The "school of origin" means the school that the child attended when permanently housed or the school in which the child was last enrolled. Placement decisions shall be made according to the District's determination of the child's best interests, and shall be at either: (1) the child's school of origin for the duration of the child's homelessness (or, if the child becomes permanently housed during the school year, for the remainder of that school year) or (2) the school of the attendance area where the child is actually living. To the extent feasible, the place-

ment shall be in the school of origin, except when such is contrary to the wishes of the homeless child's parent or legal guardian. If the placement is not in the school of origin or a school requested by the homeless child's parent or legal guardian, the District shall provide a written explanation of the placement decision and a statement of appeal rights to the parent or guardian. If the homeless child is an unaccompanied youth, the Homeless Coordinator shall assist in the placement decision, consider the views of the unaccompanied youth, and provide the unaccompanied youth with notice of the right to appeal. In the event of an enrollment dispute, the placement shall be at the school in which enrollment is sought, pending resolution of the dispute in accordance with the dispute resolution process. The homeless child shall be immediately enrolled in the school in which the District has determined to place the child, even if the child is unable to produce records normally required for enrollment, such as previous academic records, medical records, proof of residency, or other documentation. The District shall immediately contact the school last attended by the homeless child to obtain relevant academic and other records. If the homeless child needs to obtain immunizations or medical records, the District shall immediately refer the parent or guardian of the homeless child to the Homeless Coordinator, who shall assist in obtaining necessary immunizations or medical records. The District may nonetheless require the parent or guardian of the homeless child to submit contact information.

Transportation will be provided to homeless students, to the extent required by law and comparable to that provided to students who are not homeless, upon request of the parent or guardian of the homeless child, or by the Homeless Coordinator in the case of an unaccompanied youth, as follows: (1) if the homeless child's school of origin is in the Valentine Community Schools, and the homeless child continues to live in the Valentine Community Schools' District, transportation to and from the school or origin shall be provided by Valentine Community Schools; and (2) if the homeless child lives in a school other than the Valentine Community Schools, but continues to attend the Valentine Community Schools based on it being the school of origin, the new school and the Valentine Community Schools shall agree upon a method to apportion the responsibility and costs for providing the child with transportation to and from the school of origin and, if they are unable to agree, the responsibility and cost for transportation shall be shared equally.

Section 11 - Annual Notification of Asbestos Management Plan Availability

Federal regulations require all schools to inventory asbestos containing materials and develop management plans to identify and control asbestos containing materials in their buildings.

The presence of asbestos in a building does not mean that the health of building occupants is necessarily endangered. As long as asbestos containing material remains in good condition and is not disturbed, exposure is unlikely.

The plan is available for review in the school administrative office during normal business hours.

At least once each six months periodic surveillance is being conducted on all asbestos containing material and suspect material assumed to contain asbestos.

A reinspection is being conducted every three years in all schools that have asbestos containing material.

From time to time operations and maintenance activities may be conducted to maintain all material in good condition.
